User Stories: Teacher (Ataur)

US-T1: Teacher Login and Dashboard

User Story:

As a teacher, I want to log in to my account and see my dashboard, so that I can easily manage my classes and daily tasks.

Acceptance Criteria:

- The teacher can log in using a valid email and password.
- The dashboard shows assigned courses, today's classes, pending tasks, and recent notifications.
- The teacher can log out securely.

US-T2: Select Course and Section

User Story:

As a teacher, I want to select my assigned course and section according to the class schedule, so that I can access the correct student list and classroom activities.

Acceptance Criteria:

- The teacher can see the courses and sections assigned to them.
- The system shows the class schedule and enrolled students.
- The teacher cannot access sections that are not assigned to them.

US-T3: Take Class Attendance

User Story:

As a teacher, I want to mark students as present, absent, or late, so that I can keep an accurate record of class attendance.

Acceptance Criteria:

- The teacher can mark attendance for the whole class and submit it at once.
- The system saves the attendance date, class section, and student status.

- The teacher can correct attendance after submission if permitted, and the change is recorded.
- The system prevents duplicate attendance records for the same class session.

US-T4: View and Update Attendance Records

User Story:

As a teacher, I want to check previous attendance records, so that I can identify students who are frequently absent or late.

Acceptance Criteria:

- The teacher can view attendance by student, section, and date.
- The teacher can filter records by a selected date range.
- Students with repeated absences can be identified easily.

US-T5: Post Classroom Announcements

User Story:

As a teacher, I want to post announcements for my class, so that students can stay informed about class updates, exam dates, and important notices.

Acceptance Criteria:

- The teacher can write an announcement and post it to an assigned section.
- The teacher can attach a file when necessary.
- Only students in the selected section can view the announcement.
- The teacher can edit or remove their own announcement when permitted.

US-T6: Notify Students

User Story:

As a teacher, I want to notify students about important class activities, so that they do not miss deadlines, exams, or other updates.

Acceptance Criteria:

- The system notifies students when a new announcement or assignment is published.
- Students can receive reminders about upcoming deadlines.
- The teacher can see whether a notification was sent successfully, where delivery tracking is supported.

US-T7: Assign Assignments

User Story:

As a teacher, I want to create and assign homework to my students, so that they know what to complete and when to submit it.

Acceptance Criteria:

- The teacher can add an assignment title, instructions, total marks, and due date.
- The teacher can attach worksheets or other learning materials.
- The teacher can save an assignment as a draft before publishing it.
- Only published assignments are visible to students.

US-T8: Review Student Submissions

User Story:

As a teacher, I want to view students' submitted assignments in one place, so that I can check their work without opening each student's profile separately.

Acceptance Criteria:

- The teacher can view submitted, late, and missing assignments.
- The teacher can open or download submitted files.
- The submission time is recorded automatically.
- The teacher can allow a late submission or resubmission when necessary.

US-T9: Record Quiz Marks and Exam Results

User Story:

As a teacher, I want to record marks for quizzes, midterm exams, and final exams, so that each student's academic performance is properly recorded.

Acceptance Criteria:

- The teacher can enter marks for students in an assigned section.
- The system checks that marks do not exceed the total marks.
- The teacher can review and correct marks before submitting them.
- Results are stored separately for each assessment.

US-T10: Edit Submitted Results

User Story:

As a teacher, I want to correct a student's result when I find a marking error, so that the recorded marks remain accurate.

Acceptance Criteria:

- The teacher can edit results if they have the required permission.
- The system records the previous mark, updated mark, date, and person who made the change.
- Changes to finalized results may require approval from the authorized academic authority.
- If a published result changes, the student is notified of the update.

US-T11: Submit Final Grades

User Story:

As a teacher, I want to calculate and submit final grades for my students, so that their academic results can be reviewed and published by the university.

Acceptance Criteria:

- The system calculates final grades according to the approved grading policy.
- The teacher can review the marks before submission.
- The system shows whether grades are draft, submitted, approved, or published, depending on the university's process.
- The teacher cannot approve their own grades if approval is assigned to another authority.

US-T12: Provide Feedback to Students

User Story:

As a teacher, I want to give feedback on students' assignments and results, so that they understand their mistakes and know how to improve.

Acceptance Criteria:

- The teacher can write individual feedback for each student.
- Feedback is linked to the relevant assignment or assessment.
- Students can view feedback when it is made available to them.
- One student's private feedback cannot be viewed by other students.

US-T13: Collect Student Issues

User Story:

As a teacher, I want to report serious academic, attendance, or behavioral issues to the appropriate authority, so that students can receive the necessary support.

Acceptance Criteria:

- The teacher can submit a report with the student's details and a description of the issue.
- The report is sent to the designated authority, such as the department head or academic coordinator.
- Only authorized people can access the report.
- The teacher can check the report status if the system supports it.

US-T14: View Class Schedule

User Story:

As a teacher, I want to see my upcoming classes, pending assignments to grade, and other unfinished tasks, so that I can plan my work and avoid missing important responsibilities.

Acceptance Criteria:

- The dashboard displays upcoming classes and relevant deadlines.
- Pending submissions and results awaiting action are clearly listed.
- The teacher can open a task directly from the dashboard.
- After completing a task, the teacher can return to the dashboard.
