UML Use Case Diagram

Use case explanation

The Center Admin is the actor associated with the thirteen main use cases inside the ASPIRE Center Admin Module boundary. Two included use cases support fee generation and payment recording.

Table. Use case catalogue

ID	Use case	Actor	Description and relationships
UC-CA-01	Log in and manage own account	Center Admin	Signs in and maintains the Center Admin account, including profile and password changes.
UC-CA-02	View assigned-center dashboard	Center Admin	Views the dashboard for the assigned center.
UC-CA-03	Manage student, teacher and parent accounts	Center Admin	Maintains student and teacher accounts and registers and lists parent accounts.
UC-CA-04	Link parent and allocate teacher	Center Admin	Connects a student to a parent account and an assigned teacher account.
UC-CA-05	Enroll student and update enrollment status	Center Admin	Creates or updates enrollment details and the student enrollment status.
UC-CA-06	View student learning and fee details	Center Admin	Views the student's learning information and recorded monthly fee details.
UC-CA-07	Monitor attendance history and totals	Center Admin	Browses student attendance history and Present, Absent and Late totals.
